Dear Paul Rouser

### ACADEMIC PROGRAMME

According to the 2020-year programme, the school would have commenced for term 2 today. At this stage, there is still uncertainty as to when the schools will re-open. There is, however, no reason for panic as we are thinking creatively of ways to adjust the year programme so that we can catch up on lost academic time.

This communication is merely to encourage you to do the work which was communicated in our Contingency Distance Programme, available on the PRG website, at the end of last term. This is to ensure that you stay up to date with the academic programme. On 14 April we will communicate about the way forward to ensure continuity in our academic programme.

Especially the matrices need to utilise the time to

- read the literature setwork;
- revise the work done in term 1.

Please make sure that you have access to the work which has been uploaded on Google Classroom by the teachers. If you are not registered on Google Classroom, please email Ebrahim Friezlar: [efriezlar@paulroos.co.za](mailto:efriezlar@paulroos.co.za). If you have been invited to join Google Classroom, please make sure you accept the invite.
