We have broken ground on an ambitious construction project that will add two new conference venues and a new executive suite to our existing conference offering.

When these new additional conference areas are complete, we will have a total of 1500m² of conference and exhibition space, making us the largest conference and exhibition facility in the Winelands.

With the completion of this project in September, there will be an additional 450m² of meeting and exhibition space, an additional executive suite, bringing the total number of suites to 5, as well as beautiful new bathroom facilities. At the same time, the Cultivar Restaurant will be refreshed, redesigned, and refurbished.
