

PAUL ROOS GYMNASIUM
GRADES 10 - 12 SUBJECT CHOICES FOR 2027

NAME & SURNAME OF LEARNER: _____

GRADE YOU ARE APPLYING FOR: _____

Please take note of the following:

- The feasibility of subject combinations depends on class sizes, timetable variables and availability of teaching staff. It is not a given that the above mentioned options will materialise.
- Mathematics is a requirement for Physical Sciences and Information Technology. If you decide at a later stage to change to Mathematical Literacy you will therefore also need to change these subjects.
- * Information Technology (IT) requires a minimum of 70% for Mathematics in Grade 9. IT can be taken in the Subject Choice Group 1 or it can be taken as an extra subject after school hours. If a learner takes IT in Grade 10 as an extra subject (after school hours) he may replace one of his choice subjects in Grade 11 and 12 with IT. He will still attend classes after school hours, even if it has replaced one of his choice subjects.

Indicate your choice with a cross (X). You are not allowed to choose the same subject in more than one group.
