PAUL ROOS GYMNASIUM SPORTS SCIENTIST

Paul Roos Gymnasium requires the services of a Sports Scientist with proven school and rugby experience at u.19A-level, who can take the school's conditioning programme to new heights. The individual must possess the necessary qualifications, vision, passion, and energy to expand and improve the programme.

DATES AND ARRANGEMENTS

- Only shortlisted candidates will be contacted. No further correspondence will be entered into.
- Paul Roos Gymnasium reserves the right not to make an appointment. An application does not necessarily guarantee an interview.
- Closing date – 4 September 2026. Please send a comprehensive CV to sjordan@paulroos.co.za.
- Start date – 1 January 2027 (Negotiable)
- For further enquiries, contact Stephan Jordaan (sjordan@paulroos.co.za)

MANAGEMENT

- Management of injured players and rehabilitation in consultation with medical staff.
- Management of the practical aspects of the school's PE programme, the presentation of PE classes, and the ability to manage learners in a classroom setting.
- Management of the workload of players participating in multiple sports codes.
- Management of GPS devices and the interpretation of the data.

EXERCISE PROGRAMMES

- Designing training programmes for the school's various sports codes and teams.
- Conditioning school teams in the sports codes offered by PRG, particularly rugby, cricket, hockey, water polo, golf, tennis, and soccer.
- Presenting lifestyle programmes for less sports-oriented learners.

GENERAL

- Proven sports experience – specifically rugby – and a willingness to provide services at the sports fields.
- Willingness to travel and accompany teams on tours.
- A first aid qualification would be an advantage.
- Sports coaching and teaching experience will count in your favour.
- Excellent interpersonal skills and the ability to function as a full-time staff member within a school environment.
- The individual is expected to maintain close liaison and cooperation with coaches and heads of sport regarding the needs of their teams.
- Expertise in the fields of rehabilitation, recovery, and nutrition.
- An Honours degree in Sport Science or Biokinetics.
